Please Recycle

Grower's Secret Liquid Humic can be applied to most vegetable crops, row crops, deciduous fruit and nut trees, citrus, avocados, grapes, melons, ornamentals, turf, pasture, range grasses, and most other crops.

Grower's Secret Liquid Humic is a concentrated form of humic acid and is recommended for use with or without fertilizers and micronutrients. It can be used in irrigation systems and can be added to the water of gravity, sprinkler systems, and drip irrigation systems.

Grower's Secret Liquid Humic is believed to be compatible with most fertilizers and plant nutrients. However, when mixing with other products, it is recommended that a physical and plant compatibility test be conducted using small quantities in proportion to field application rates. Recommended rates are intended as a guideline only and may not be suitable for all regions, conditions and crops. DO NOT store diluted product.

## DIRECTIONS FOR USE

Pre-plant and Side Dress: Apply 1-3 quarts (1-3 liters) in a minimum of 30 gallons (114 liters) of water or fertilizer.

Foliar Feeding: Aerial Application: Apply 1-3 guarts (1-3 liters) in a minimum of 5-10 gallons (19-38 liters) of water or fertilizer per acre when crop is from 3 to 4 weeks old. Repeat as needed. Ground Rig: Apply 1-3 quarts (1-3 liters) in a minimum of 15 to 20 gallons (57–76 liters) of water or fertilizer per acre.

Grower's Secret Liquid Humic can be used in transplant water at a rate of 1-2 gallons (4-8 liters) per acre. It can also be used in direct seed application, such as rice, at the rate of 1-2 gallons per acre. Compatibility issues may result if Grower's Secret Liquid Humic is mixed with acidic solutions.

## LAWN AND GARDEN:

Mature Plants: Mix 4 oz of humic acid per gallon of water once every 1-2 weeks. Starter Plants: Mix 2 oz of humic acid per gallon of water once per week. Seedlings: Mix 1 oz of humic acid per gallon of water once every 2 days.

Water as needed in between applications. Make application rate adjustments based on observations of your plants.
